TriCaster® Vizion

Hardware Options and Specifications

TriCaster® Vizion offers more purchasing options and flexibility than ever before. Please see below an outline of the different hardware form factors and configurations.

Choose Your Vizion

TriCaster Vizion is available in two hardware form factors and multiple I/O configurations – which users can select according to their project type. It is also available as a perpetual or subscription license.

Hardware Option 1:

The 4RU tower will be perfect for a more traditional TriCaster install where the TriCaster is co-located in a production space or for a system requiring the highest SDI I/O count.

HP Z4 G5 Tower

Configuration Options

IP + 0 SDI Channels

OR

IP + 8 user-configurable SDI Channels

OR

IP + 16 user-configurable SDI Channels

Hardware Specifications

- Multi-tiered hardware fail-safe 4 RU Tower chassis with 1 x 1125W PSU

- Dimensions: 17.5 x 15.2 x 6.65" / 44.5 x 38.6 x 16.89 cm

- Weight: 27.8 lb / 12.6 kg

- 3-Year Warranty Included

TriCaster® Vizion

Hardware Option 2:

The 1RU rack is great for lower SDI counts and a datacenter environment. The cooling system will be louder than the tower system but will take up less space.

HP Z4 G5 Rack

Configuration Options

IP + 0 SDI Channels

OR

IP + 8 user-configurable SDI Channels

Hardware Specifications
